YOUR AI SHOTS ALL LOOK LIKE NOON?
EIGHT LIGHTS · EIGHT HOURS · ONE DAY

21:40 · ONE SOURCE, BELOW THE FACE

Name the colour temperature. Let everything else go black.

Light is the brief.

CANDLE

02

23:10 · TWO COLOURS, ONE FROM EACH SIDE

Let the sign light the face. Keep the sign out of frame.

NOON

12:00 · THE SUN STRAIGHT ABOVE

Ask for the shadow, not the sun. A hard black shadow is what proves noon.

STORM
16:20 · MINUTES BEFORE THE RAIN
Shadowless and cold. Flat light is a choice, not a failure.
UNOFFICIAL AI CONCEPT · EVERY PHOTOGRAPH IS GENERATED

TUNGSTEN

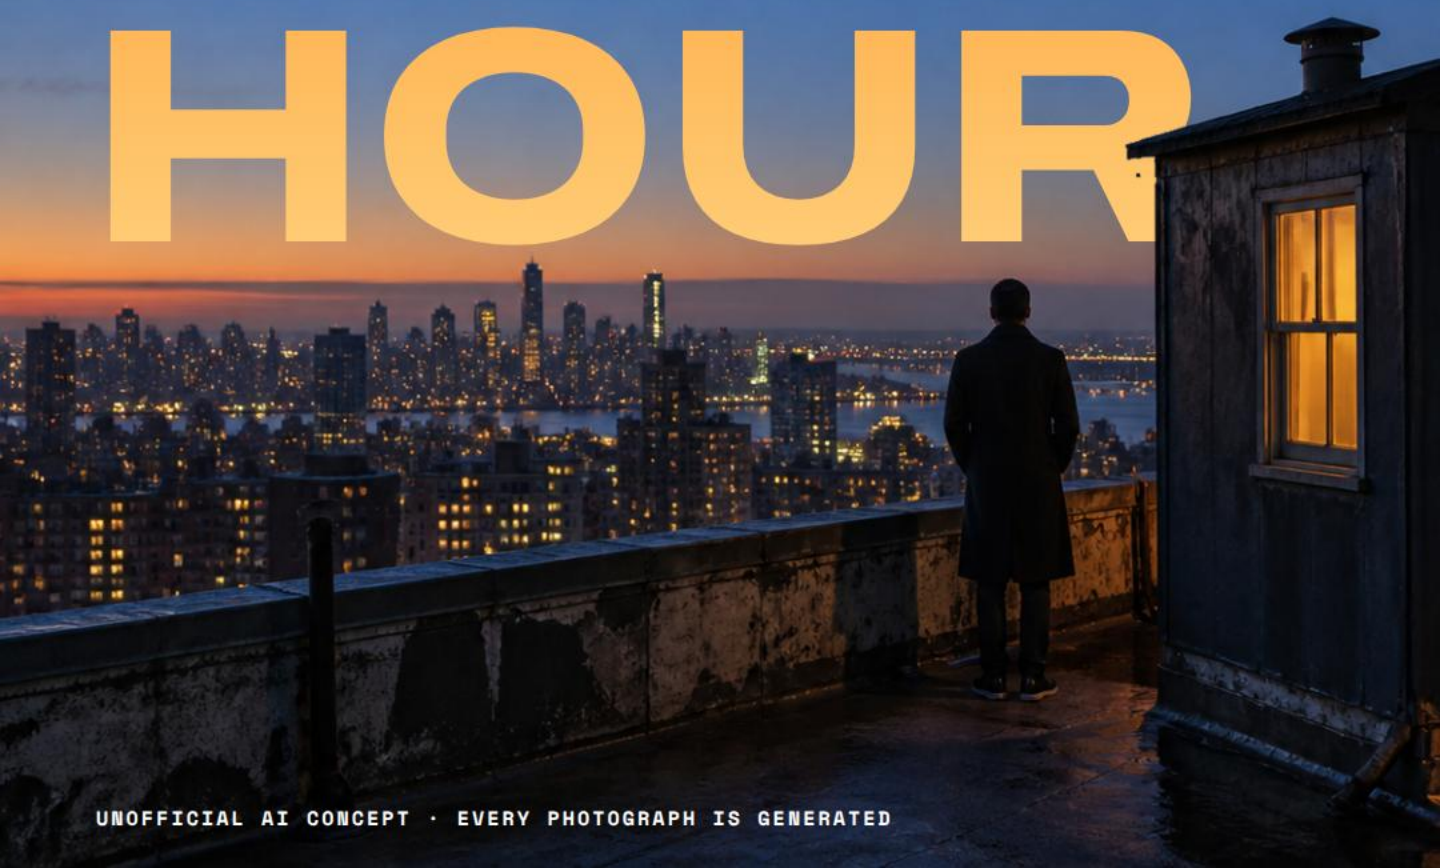

22:15 · BULB LIGHT

Name the bulb, not the mood. Amber light, brown shadow.

20:05 · ONE EVEN BLUE, ONE WARM WINDOW

That contrast is the whole frame. Ask for the window, not the sunset.

BLUE HOUR

FLASH

01:30 · ON-CAMERA, DIRECT

Hard shadows on the wall behind. Ugly is the look.
